

Stamp of Approval Development Services

Marie Stamps, MS Ed, MS SpEd, SBL

Parent and Educator Coach

Professional Development Workshops

Schools and organizations that partner with Stamp of Approval demonstrate a commitment and investment in the culture of their institutions. Research indicates that when professional development is personalized to organizational goals or individual teacher needs, children experience better learning outcomes.

Schools can select one-time targeted workshops that focus on a specific pedagogical practice. The facilitator works with educators and school staff to gain a better understanding of the strategy. While the workshops are topic-specific, they are adapted to meet the mission of the school and the needs of participants through discussion, reflection and school-wide or classroom application.
